

Dear Wayne

Congratulations, you've done it again.

The blokes came down, with yourself, to do the fascia boards and drain pipes, and what a wonderful job. Fantastic. I've put you on my Noticeboard at work to let people know who to contact if they wish a professional job done on their property.

Hopefully, in the not too distant future, I will need my porch and front windows with cladding, needing to be re-done. Had it done, many years ago, by a "big" firm situated in Denton, who I won't mention, and who used inferior materials, and you can certainly see the difference.

Well done Wayne

Yours sincerely
